Bedtime routine

Winding down for bed

1. Do the steps in order, every night.
2. The same steps each night help your body get ready to sleep.

1  Take a warm bath	2  Put on pajamas	3  Brush your teeth	4  Read a story
5  Goodnight hug	6  Lights off	7  Close your eyes	8  My own step

↳ Grown-ups: after late nights over break, start this routine again a few days before school.
